PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience building full-stack applications using Java, Spring Boot, React, TypeScript, REST APIs and relational databases. Developed AlgoForge, a coding practice and performance assessment platform with authentication, automated evaluation, submissions, leaderboards and Docker-based code execution. Strong foundation in OOP, DSA, DBMS and web development.

EDUCATION

Erode Sengunthar Engineering College, Anna University

B.E. Computer Science and Engineering

2023–2027

CGPA: 8.0/10

TECHNICAL SKILLS

Programming: Java, JavaScript, TypeScript, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Spring Boot, Spring Security, REST APIs, JDBC

Database: PostgreSQL, MySQL

Tools: Git, GitHub, Maven, Docker, Postman, Swagger/OpenAPI, Flyway

Core: OOP, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

PROJECTS

AlgoForge – Coding Practice & Performance Assessment Platform

Java / Spring Boot / Spring Security / JWT / React / TypeScript / PostgreSQL / Docker

- Developed a full-stack coding platform for problem practice, code submission, automated assessment, performance tracking and leaderboards.
- Built REST APIs with authentication and role-based access for problem, test-case, submission and user-performance workflows.
- Implemented Docker-based code execution workflows and integrated a React/TypeScript coding interface with backend services.

SafeBite AI – Food Safety Risk Monitoring System

Java / Spring Boot / React.js / MySQL / REST APIs

- Developed a full-stack application for monitoring food safety risks and product information using Spring Boot, React and MySQL.
- Implemented barcode scanning and expiry-date detection features and integrated frontend components with backend REST services.

Online Shopping Cart System

Java / JSP / Jakarta Servlets / JDBC / MySQL / Maven

- Built a Java web e-commerce application with product browsing, authentication, cart management and order workflows.
- Integrated MySQL using JDBC and implemented session-based cart operations including add, update, remove and total calculation.

INTERNSHIP

Infosys Springboard Internship 7.0 – Batch 2

Java Full Stack

- Selected participant in the Java Full Stack internship program.
- Developed the Web Platform for Coding Practice and Performance Assessment using React, Spring Boot and PostgreSQL.

CERTIFICATIONS

Node.js Certification – Unstop | Front-End Web Developer – Infosys Springboard | SQL (Basic) – HackerRank
